

轮斗式洗砂机

Wheel bucket sand washing machine

我集团结合砂石行业实际情况及长期经验沉淀所研发的轮斗式洗砂机，可广泛应用于石灰石、青石、河卵石、花岗岩等物料的洗选、分级、除杂质，能够有效提高成品砂的质量，是人工制砂湿法加工工艺中的优选设备。

The wheel bucket sand washing machine developed by our group in combination with the actual situation of the sand and gravel industry and long-term experience precipitation can be widely used in the washing, grading and removal of impurities of limestone, bluestone, river pebbles, granite and other materials, and can effectively improve the quality of finished sand. It is the preferred equipment in the artificial sand wet processing process.

产品优势

>> Product Advantages

高效环保

结构优化，高效清洗、分级和除杂；适配水洗工艺，粉尘污染小。

耐用稳定

设计合理，除筛网外几乎无易损件，故障率低；优选制造材料，抗磨损、防腐蚀，环境恶劣照样运行无忧。

洁净度高、流失少

所洗建筑砂级配合理，细度模数达标，可满足高等级用料要求，且洗砂过程中细砂和石粉流失少。

Efficient and environment friendly

Optimized structure, efficient cleaning, grading and impurity removal, suitable for water washing process, less dust pollution.

Durable and stable

The design is reasonable, there are almost no wearing parts except the screen, and the failure rate is low; the manufacturing material is optimized, anti-wear, anti-corrosion, and it can operate without worry in harsh environments.

High cleanliness and less loss

The gradation of the washed construction sand is reasonable, and the fineness modulus is up to standard, which can meet the requirements of high-grade materials. and the loss of spun yarn and stone powder is less during the sand washing process.
